

## LAPTOPS RFP QUESTIONS AND ANSWERS

- The District lists Dell as the preferred manufacturer for laptops. In the past, the district considered other Tier One manufacturers such as Lenovo as an approved alternative option. Can you please confirm if the District will consider Lenovo for this project as well?

**No, the RFP specifies Dell laptops**

- For the 127 laptops you list VBA as one of the ports required. Would you consider HDMI as an alternative option and if not, would you consider a HDMI to VGA adapter?

**VGA ports are required for the RFP. Vendors may include a product with a HDMI or Display port + adapter, and those will be considered, but built-in VGA is preferred.**

- Is a 3 year Manufacture Depot warranty with prepaid overnight shipping sufficient on the laptops or do you require an onsite warranty?

**Prepaid overnight shipping to manufacture depot is sufficient.**
