

LAPTOPS RFP QUESTIONS AND ANSWERS

- The RFP titled “Dell laptops and service” has provided hardware specifications that include an 8th Generation Intel i5 processor at 2.4GHz.
2.4GHz should be the minimum, burst (max) frequency
- Would the Champaign Community School District find it acceptable to utilize an 8th Generation intel i5 processor at 1.9Ghz?
1.6GHz is an acceptable base frequency
- If the 8th Generation 1.9GHz clock speed is unacceptable, would the Champaign Community School District accept a 7th Generation Intel i5 processor at the desired clock speed?
i5-8250U processors meet this requirement
- The “Background” section of the Introduction indicates 127 laptops are to be the desired quantity of the RFP. The “specifications” section of the Scope of Work indicates 143 laptops are to be the desired quantity of the RFP. Would you please clarify the desired quantity for the RFP?
The RFP is for 127 laptops
