History and Purpose of the Social Justice Initiative

During the 2012-2013 school year the social justice committee focused on learning about social justice by studying relevant literature and engaging in collaborative learning sessions. The committee generated a definition of social justice and a social justice framework for our district. The framework, agendas, meeting notes, and documents can be found at http://www.champagneschools.org/social-justice in English and Spanish. Having met the two goals of creating the definition and framework, planners now provide professional development and project opportunities via social justice seminars and topic specific task forces/initiatives.
