**Action Agenda: New Business**

**O’Shea Builders Amendment Approval – Tommy Stewart Field Project:**  Mark Roessler

Member Shannon moved, with a second by Member Armstrong to approve O’Shea Builders Amendment Approval – Tommy Stewart Field Project. The motion carried on roll call. Ayes 7. Nays 0.

In November 2016, District voters approved a facilities referendum to undertake facility improvement projects at several District facilities. On April 9, 2018 the Board of Education approved amendment #1 to O’Shea Builder’s contract to assign five construction contracts and allow them to manage the reconstruction of Tommy Stewart Field, part of the larger Centennial High School project, as anticipated in their base contract.

The detention basin that serves as the outfall for the majority of the storm water for the field was to be constructed as part of the larger Centennial High School project. The construction site experienced several heavy rains in the month of June which have proven to bring risk to the new improvements. The remedy is to expedite the installation of the outfall storm lines and detention basin. The final design and pricing for that infrastructure is underway, but Administration requested approval of an increase to O’Shea Builders’ construction contingency to provide sufficient funding for this upcoming work. By obtaining approval for this increase now, the Project Team will be ready to move forward with a change order to the contractor as soon as the design is complete and the pricing is reviewed. Time is of the essence in order to keep the substantial completion date of August 24, 2018 and minimize risk to the improvements.

For execution and management of future storm sewer and detention basin work, O’Shea has established a revised Guaranteed Maximum Price of $2,483,248, an increase of $250,000.

Administration recommended approval of an amendment to O’Shea Builders’ contract.

She was also previously employed with The Mettler Center as a Member Services Coordinator for five years.
